CAPABILITIES HIGHLIGHTS

PROJECT & TEAM MANAGEMENT EXPERIENCE

I bring experience in technical, artistic, corporate, theatrical and multi-venue/multi-site settings where I oversaw theatrical and technical projects with six figure budgets from design to completion.

MARKETING & COMMUNICATIONS

Both with FSG and Saphes Marketing Group (my marketing company), I've worked with clients to help them create the right message, clearly written, designed effectively and communicated consistently.

Recently at Mending the Soul, I've overseen the communications, marketing and domestic ministry for an international non profit ministry. At FSG in my role as Creative Director, I have created a national communications network that includes podcasts, mobile apps, websites, video production, national events, HR resources & live YouTube events.

HOBBIES & INTERESTS

ANALOG PHOTOGRAPHY

My main hobby is photography. I've enjoyed being in the darkroom since I was a teenager. In my free time, you'll find me shooting and developing medium and large format images around the area.

SUMMARY (TL/DR)

My wide range of skills and experiences gives me a unique vantage point to find connections and solutions to creative problems that would otherwise be difficult to see. I bring an artist's eye to technical problems and technical know-how and experience to creative projects.
